Product highlights

Charge AA, AAA, 9V, C and D

The charger is designed to charge AA, AAA, 9V, C and D batteries.

Reversed polarity protection

It allows you to make safe and easy use of your charger because the charger is designed to prevent batteries from being charged and damaged when inserted the wrong way.

Timer controlled

The built-in safety timer stops the charger when the batteries are full. This prolongs the life of your batteries by preventing the damage caused by overcharging.

Trickle charge

Rechargeable batteries all suffer from self-discharge over time. The automatically started trickle charge keeps your batteries full and ready for use when they are kept inside the charger and in the power outlet.

1600 mAh MultiLife AA included

The 1600 mAh of energy keeps your toys and other general devices going longer.
